Illinois State University

Student Association

Dear Friend,

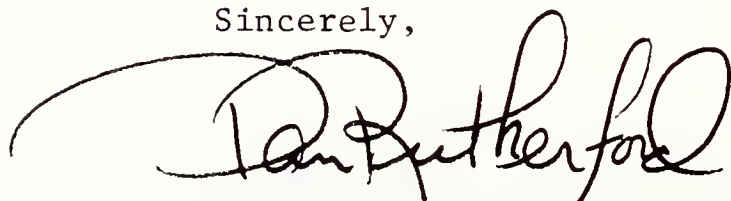

We would like to take this opportunity to welcome you to the campus of Illinois State University where there are many new and exciting challenges ahead of you. As a student at ISU, you are a member of the Student Association.

The Student Association is an active and involved organization working to promote students' rights and interests and to provide viable services. However, we need your support in order to be truly effective. Illinois State University is a good institution and the Student Association wants to help every student develop as much as possible. If we can be of assistance, or the Staff and Assembly, please call upon us.

Throughout your days here you will experience the many new aspects of college life. The following pages will provide you with a glimpse of the campus. After time passes by, it is our hope that this book will become a collection for many fond memories.

We wish you the very best in the future and hope to see you on campus.

Sincerely,

Dan Rutherford, President
Student Association

Mark Curatolo, Vice-President
Student Association

STUDENT ASSOCIATION

The Student Association is an action oriented organization working to provide services to students and to also work to promote students' rights and interests to the University and external agencies. The Preamble to the ISU Student Association Constitution is the following.

We, the students at Illinois State University, desiring to maintain academic freedom, academic responsibility, and student rights; to develop better educational standards, facilities and teaching methods; to improve student cultural, social and physical welfare; to guarantee all people, because of their inherent dignity as individuals equal rights and possibilities for higher education regardless of sex, race, religion, political belief or economic circumstances; to foster the recognition of the rights and responsibilities of students to the University, the community and humanity; to stimulate and improve democratic student representation and by allowing ourselves responsible and effective participation in the academic, economic, political, and service processes, do hereby establish the Constitution for the Student Association of Illinois State University.

EXECUTIVES

The Student Association Executives strive to reflect the views of the Student Association Assembly and to represent the student body to the best of their knowledge by working with students, faculty and administrators whenever student oriented issues are presiding. The Student Association Executives are responsible for the staff operations (i.e., Students' Legal Services, Tenant Union, Printing Services, etc.).

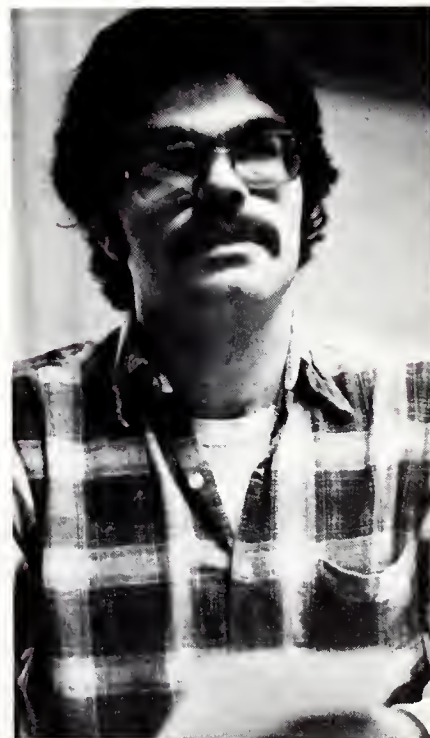

The Student Association Executive Branch consists of the President and the Vice President elected at large each spring. To qualify as an executive candidate a person must have attended the University for at least two full semesters and be in good academic standing. This process is administered by the Student Association Elections Committee.

The President and the Vice President are ex-officio members of the Student Association Assembly, the President's (ISU) Student Fee Advisory Board, and the President is also an ex-officio member of the Academic Senate.

The President is also responsible for making Assembly vetoes and student appointments including Student Association Staff Personnel with the approval of the Assembly.

Dan Rutherford, Student Association President.

Mark Curatolo, Student Association Vice-President.

**A Student Association
Assembly Meeting**

**Todd Heyse,
Vice-Chair,
Tom Murphy,
Chair Student
Association Assembly**

STUDENT ASSOCIATION ASSEMBLY

The Assembly is the directive area of the Student Association. Membership includes thirty-three (33) elected students from on and off campus. The 33 seats are divided between on and off campus representatives in proportion to the actual number of on and off campus student residents. Ex-officio membership included the President, Vice President, Student Member to the Illinois Board of Regents, the Vice Chairperson of the Academic Senate (if a student), representatives from Greek Council, Black Student Union, Association of Residence Halls and the Veterans Association. The total number of members possible on the Assembly is forty-one (41).

To qualify to run for the Assembly a student must

be a Student Association member and be in good academic standing. The elections are conducted under the supervision of the Elections Committee. Elections are held in the spring and fall of every year with half the Assembly being elected at one election and the remainder being elected in the following election.

The Assembly is mainly concerned with student-oriented issues but often within its constitutional scope will recommend to the Academic Senate or the governing body as it so resolves. The Assembly does not set policy except for the staff and agencies. The Assembly represents students' interests before whatever governing body or responsible person who establishes policy. The meetings of the Student Association are held on Sunday evenings with public notice given. Assembly meetings are open to the public and all are invited.

STUDENT RIGHTS ADVOCACY

Located in Room 201 at 225 North University, the Student Rights Advocacy has, as a working unit within, a Consumer Affairs Office. Since students in higher education are often on a limited budget, it is important to stretch money as far as it will go. Consumer Affairs conducts periodic price surveys that are made public to the students. If a student has a problem with a product and desires satisfaction, the Consumer Affairs Office will arbitrate the matter. If there is a legitimate injustice which cannot be arbitrated, the case will be referred to the Students' Legal Services Office for appropriate

legal action.

The Tenant Union offers additional services to the Student Rights Advocacy Department, taking care of landlord inquiries, lease counseling, a home exchange program, roommate referrals and complaints.

An additional unit of the Student Rights Advocacy Department is the University Affairs Office, which provides immediate informal assistance to students having problems within the University. This office serves as a general liaison between members of the University administration and members of the student body.

Mr. Eric Ruud, Director Student Rights Advocacy

Lisa Weseman, Director Information and Research

INFORMATION AND RESEARCH

The Information and Research Department, located in Room 2 at 225 North University, is composed of Research, the Data Bank, and the Information Corps. The Research Office conducts surveys on the campus to poll student sentiment on particular needs or issues. The Research Office yearly develops reports on tuition to work for keeping tuition low and also conducts studies to see if a

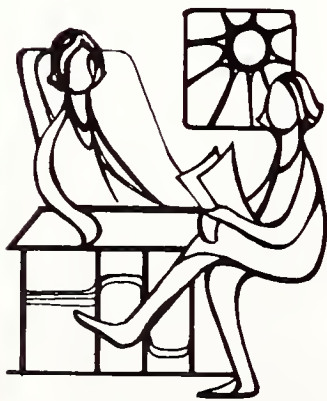

particular service is warranted.

The Data Bank is the information center of the Student Association, where all records are kept and are open for public inspection.

The Information Corps is a unit of interns guided by the Director of Information and Research to accumulate legislative information related to higher education.

STUDENTS' LEGAL SERVICES

The Students' Legal Services Office, located in Room 202 at 225 North University, has two full time attorneys who are available to all students for advice, consultation, and court representation on most civil and criminal matters. The office staff includes 12 student para-legal workers who work directly with clients under the supervision of one of the attorneys. Clients pay a \$5.00 office fee and whatever court costs their case may involve. The office is open from 8:00 a.m. to 4:30 p.m. weekdays. Clients are asked to telephone 438-2571 in advance for an appointment.

John Pavlou, Director Student Legal Services

Dan Cray, Chair Student Legal Services Committee

Students' Legal Services Committee

The committee is composed of four students and two voting faculty members. This committee provides the general direction for the day to day operation of the Students' Legal Services Office. The Students' Legal Services Office is a professional office that needs dedicated people on the committee to keep the quality of performance high and consistent to the Student Association philosophy and goals.

PRINTING SERVICES DEPARTMENT

The Printing Services Department is the newest and largest department within the Student Association. The **Printing Office** extends mimeo, ditto and copy machines to all ISU students. The only cost is for paper. This office will be open during fall and spring semesters Monday through Thursday from 8:00 a.m. to 8 p.m. and Friday from 8:00 a.m. to 4:30 p.m.

Book Exchange—The Book Exchange is sponsored by Student Association at the beginning of each semester. Students bring in used books and set the prices at which they want to sell them. The only cost to the student is a small handling charge which is incurred only if the book is sold.

Senior Pictures is another service the Student Association provides since there always seems to be a great demand on the part of parents wanting a picture for graduation. A professional studio sets up operation on campus in the spring and in the fall for one week.

There is a student discount for using this program. At the time of receiving your proofs a person can order a yearbook made up of pictures of seniors who had their portrait taken.

Voter Registration is another service within the Printing and Services Department. County registrars visit the campus for several days before each election in order to make it more convenient for students to register. This is a rather new partaking on campuses because it hasn't been too long 18 year olds could vote.

Rider Exchange—A 24 hour ride exchange service is available by calling 436-6054. Riders and drivers can call the Student Association and leave their name, number, social security number, destination, and departure date and time with the electronic answering service. They will be called back and given names and numbers of students going to the same or similar destinations.

. . . more activities

To the Greeks at Illinois State University, the well-known phrase "once we were one, now we are many" is becoming more true each year since the Greek system is increasing in popularity. Newly constructed sorority and fraternity houses are being built to hold members in an unified atmosphere with friendly surroundings, with a sense of being, and with a symbolic purpose for existence.

The Greek System offers identification with other people, high standards, social activities, service to the community, scholarship, and academic standings not only to its members, but also the many individuals who join. That is why when a person

"rushes a house" he is exposed to the many programs each Greek house has to offer. Pledgeship opens up a new world to prospective members and acts as a testing ground for membership. After a person is finished pledging, the loyalty that he has shown to his brothers or sisters fosters a loyalty to the Greek System as a whole. Greeks know that the bonds that hold each member together forms a liaison between collegiate and alumnae chapters both before and after graduation.

The Greek System is not a vacuum, but a society with many goals and purposes. It is a pyramid of power which aspires to those collegians who have the incentive to take an active role. The Greek System is beneficial in the sense that one is left with a feeling of accomplishment in his fraternal and campus life.
